Dear Mr. Criddle:

Re. Weber River

The Weber River Water Rights Committee met February 4, 1959 at Ogden, Utah. Ten of the twelve Committeemen were present. Also present were E. G. Thorum representing the Utah Power and Light Company and Edward H. Southwick, Weber River Water Commissioner. The basis of assessment for the distribution of water on the Weber River System was discussed. The Committee approved the basis of assessment as has been furnished your office. It was moved that this basis of assessment be presented to the State Engineer with the recommendation that he adopt the basis of assessment for the year 1959.

For your information, I quote the following motion in relation to water right applications on the Weber River System: "E. J. Fjeldsted moved that the Chairman of the Weber River Rights Committee be authorized and directed to make a monthly review of all water rights of the Weber River System as the applications stand in the office of the State Engineer, report these findings to the members of the Weber River Water Rights Committee as well as the to the Weber River Water Commissioner and to make protests if deemed necessary. Ronald Wadsworth seconded the motion and upon vote carried unanimously." Any assistance that your office could give me in reference to this matter will be much appreciated.

If the Rights Committee can be of further assistance concerning any of these matters, kindly feel free to call upon us.

WEBER RIVER COMMISSIONER

Ed. H. Southwick
3443 Fowler Ave.
Ogden, Utah

Yours very truly,
WEBER RIVER WATER RIGHTS COMMITTEE

D. Earl Harris
D. Earl Harris, Chairman
